Debut of History of University

"Some books," as Francis Bacon once remarked, "are to be tasted, others to be swallowed, and some few to be chewed and digested." For the many people with an abiding interest in The University of Alberta and for those whose interest is limited but who would like to learn more about the University, *A History of The University of Alberta: 1908-1969* by Walter Johns surely belongs in the latter category. It is a full course meal graciously served by an author who, having maintained an affair of the heart with the University since 1938 in his capacity as Professor of Classics and, from 1959 to 1969, President of the University, is highly qualified to set down the vibrant history of the institution.

Dr. Johns spent countless hours conducting research in University Archives and the combination of that work and extractions from his own storehouse of knowledge about the University and its people resulted in a 510-page book that, with its twenty-two wide-ranging chapters and sixty-four pages of photographs, seems destined to be the definitive history of the University.

Approximately 125 pairs of hands including those of Professors Emeriti, Board of Governors representatives, Deans, and former President Max Wyman, eagerly reached for copies at a reception held at University House on 9 July. The reception was hosted by The University of Alberta Press, publishers of the book. President Horowitz piqued reader interest by saying that he was up until 1:20 a.m. that day polishing off the book. It is a

Former President Walter H. Johns at the 9 July reception celebrating the publication of his long-awaited *A History of The University of Alberta: 1908-1969*.

delightfully happy marriage of students and other various components of academic life, Dr. Horowitz said. Particular reference was made to the period 1959 to 1969 or "the Johns Years." These were turbulent times marked by constant change, an unbelievable increase in students, a building boom, and student and faculty unrest, Dr. Horowitz reminded the guests. The whole experience though was less traumatic here than at other universities, largely because the right person was in office, he said.

Dr. Johns writes at length about his five predecessors, Drs. Tory, Wallace, Kerr, Newton, and Stewart, but he does not concentrate solely on presidents, chancellors, governors, and distin-

guished faculty. We also encounter students and learn much about their sports victories, debates, social affairs, plays, parades (yes, parades), and assorted foibles.

Norma Gutteridge, Director of the University of Alberta Press, knew something earlier that readers of the book will discover in short order: Dr. Johns is interested in people more than institutions and he has a talent for making personalities and the events in which they played a part come alive on the page.

His feeling for people did land him in some difficulty with the index for, as he said at the reception, once you decide to put names in there's no stopping. The index, in fact, "nearly scuppered the ship." A short while later Dr. Johns himself appeared in some danger of being scuppered as colleagues, friends, and well wishers gathered 'round for a chat and to have him autograph the book. The signature was applied with a deserved measure of satisfaction. □

Natural Sciences and Engineering Funding Acknowledged by V.P.

J. Gordin Kaplan, the newly appointed Vice-President (Research), is appreciative of federal government funding to the Natural Sciences and Engineering Research Council. He recently wrote to the Hon. John Roberts, Minister of State for Science and Technology, as follows:

Dear Mr. Roberts:
I wish to express my own appreciation, and that of a substantial number of my colleagues at this University and elsewhere, of the recent decision of the Government to increase the funding to, and thus to permit real growth of, the Natural Sciences and Engineering Research Council. It is significant that most of this budgetary supplement will be used to permit Canadian scientists to acquire new, and replace obsolete,

research equipment. Lack of modern research apparatus has been one of the most critical problems in Canadian science and it is gratifying that you and your colleagues have taken an important step to correct it.

I extend an invitation to you to visit The University of Alberta, and its scientific and engineering research community, in the near future.

With my thanks for your efforts on behalf of Canadian science and engineering research, I am
Yours sincerely,
J. Gordin Kaplan,
Vice-President (Research),
Professor of Biochemistry.

(Dr. Kaplan suggests that others may wish to write to Mr. Roberts.) □

Earle Willard McHenry Award—1981 Presented to Donald Robert Clandinin

The 1981 recipient of the Earle Willard McHenry Award is Donald Robert Clandinin of the Department of Animal Science. This award is presented by the Nutrition Society of Canada in recognition of distinguished service in the field of nutrition.

Dr. Clandinin was born in Vandura, Saskatchewan on 19 January 1914. A few years later his family moved to Vancouver. He attended the University of British Columbia and graduated with a BSc in Agriculture in 1935 and a MSc in Poultry Genetics in 1936. He obtained a PhD degree in Biochemistry and Poultry Nutrition from the University of Wisconsin in 1948.

Dr. Clandinin joined the staff of The University of Alberta in 1938 and served the University until his retirement in 1979. Upon retirement, he was appointed a Professor Emeritus. In this capacity he has continued his research and many other activities in the Department of Animal Science.

Dr. Clandinin has made significant contributions to the advancement of the knowledge of poultry nutrition. His early research dealt with the use of riboflavin in poultry rations. The results of this work demonstrated that riboflavin could be used to replace the riboflavin provided by milk products in rations for chicks and breeding hens without affecting growth rate, egg production or hatchability. After completing the work on riboflavin he undertook research on factors affecting the nutritive quality of protein supplements. In this area he studied the effects of heating during processing on the nutritive quality of soybean meal, herring meal and rapeseed meal. The results obtained demonstrated that overheating during processing reduced the nutritive quality of the meal and led to adoption by processors of procedures that would minimize loss of nutritive quality.

During the past twenty years much of Dr. Clandinin's research has concentrated on factors affecting the nutritive quality of rapeseed meal. His research has included studies on the influence of metabolizable energy, tannins, pentosans, sinapine, nitrogen solubility, dye binding capacity and levels of available lysine on the nutritive value of the meal. He has also conducted research on the influence of high and low erucic acid oils on tissue changes in chickens and rats. Currently, he has studies under way to evaluate the use of canola meals from the new low erucic, low glucosinolate rapeseed varieties.

Dr. Clandinin's outstanding contributions to knowledge of factors affecting the nutritive value of protein supplements have led to his recognition as an international authority in this area. He is author or co-author of 120 scientific papers plus a number of monograph articles. He has also written several

technical and farm bulletins on poultry production.

In recognition of his work Dr. Clandinin has been awarded many honors. He is a Fellow of the Poultry Science Association and a Fellow of the Agricultural Institute of Canada. For his major contributions to agriculture and poultry nutrition he was selected for an "Outstanding Achievement Award" by the Government of Alberta in 1974.

In addition to his contributions in the scientific field, Dr. Clandinin is recognized as an outstanding teacher of poultry science. He has taught courses in nutrition, breeding, diseases and management and has supervised many graduate students. His enthusiasm has done much to

inspire students to select poultry nutrition as their major area of endeavor.

Dr. Clandinin has been active in helping to promote the use of rapeseed products throughout the world. He has represented Canada on technical missions to more than twenty countries. By providing scientific information on the use of rapeseed meal he has contributed to increased market expansion for this important Canadian crop.

The contributions that Dr. Clandinin has made during the past forty years in the area of poultry nutrition have been of such significance that he is deserving of the honor of receiving the Earle Willard McHenry Award in Nutrition. □

Employee of the Month

All too often we fail to acknowledge the admirable traits of courtesy, reliability, and initiative. This past year, Housing and Food Services has attempted to remedy this situation.

Since September 1980 "Employee of the month" awards have been presented to Housing and Food Services staff in recognition of exceptional performance on the job.

The aim was to increase employee morale and pride in their work by demonstrating management's interest in and appreciation of a job well done. Another objective was to improve customer relations.

From the beginning, the program proved successful. Irene Provencal of the Lister Housekeeping staff was the first recipient of the award. She was nominated by three students because of her cheerful, trustworthy, and motherly attitude, and because "she tells us when we are doing something dumb."

Since the first presentation,

ten other Housing and Food Services employees have been awarded certificates: They are: Sadie Ewing, Housekeeping Pembina, October 1980; Mary Berry Ivy Wilson, Fran Therien, Charlotte Soch, SUB Cafeteria, November 1980; Dorothy Scott, Education II Lunchroom, December 1980; Norma Simmons, University Hall Lunchroom, January 1981; Marge Wachter, Housekeeping Pembina, February 1981; Helen Herklotz, Lister Hall Cafeteria, March 1981; and Art Kleemola, Security Lister Hall, April 1981.

The program will continue in September 1981. A nomination for the award must be accompanied by three signatures (students, customers, or colleagues, or a combination of the three). The nominations are then submitted to Housing and Food Services and are reviewed by a special committee. Winners receive certificates of merit.

Congratulations to all the past winners. □

The Health Sciences Audiovisual Library

The Health Sciences Audiovisual Library, located at 2-54 Medical Sciences Building, is a modestly-sized resource centre for all non-print media in the Health Sciences area.

The collection of software programs grows every month. To date, in the library are approximately 390 videocassettes (¾"), 60 videotapes (½"), 240 filmstrips, 330 slidetapes, 160 audio-cassettes, 60—16mm films, 30 microfiche, 20 filmloops (8mm), and 28 kits. The hardware equipment kept in the library includes 3 videocassette paly-back units (VCP), 4—35mm slide projectors, 2—8mm projectors, 2 "Caramates" (slide-tape units), 2 microfiche readers, 2 filmstrip viewers, and one 16mm projector, filmstrip projector and audiomate (cassette recorder). Most of the 20 "wet" study carrels are also equipped with cassette recorders.

Another function of the library is to provide information to students and staff through its Medical Resources Information Centre, and its Patient Education file. A broad selection of medical textbooks is located in the

Medical Resources Information Centre; and in the Patient Education file, pamphlets of a various nature (from "Arthritis" to "Nutrition") are available upon request.

The audiovisual catalogue is updated bi-annually and was last distributed in the fall of 1980. Kept on file, too, are other University catalogues of audio-visual software programs; however, individuals who wish to acquire programs from these catalogues would have to do so at their own expense.

Computer Assisted Instruction (CAI) is another service connected with the AV Library, and involves both MTS and the PLATO systems. Both, but especially PLATO, are used extensively by Medical and Home Economics students. Increased usage is anticipated in the future.

The majority of users of the AV Library are students in the Medical and Nursing field, although instructors and hospital staff also borrow extensively. Our main users can be classified into the following categories: "On-campus," "Off-campus," and "Out-of-town." On-campus users have

priority and include the Faculty of Medicine, the Faculty of Nursing (also, The University of Alberta Hospital Nursing Program, Nurse Practitioner's Program, and the School of Nursing), and the Faculties of Dentistry, Pharmacy and Rehabilitation Medicine; as well as users from Obstetrics, Cardiology, Emergency, Dietary, Pediatrics, the Aberhart Hospital, the Cross Cancer Institute and various other departments in the Hospital and on campus. Off-campus users would include the local hospitals, schools and colleges, government departments as well as individuals. Within the province, hospitals from other cities such as Calgary, Vegreville, Wetaskiwin, Ponoka, Medicine Hat and Red Deer use our services; and we get the occasional out-of-province user for instance, from Inuvik or Yellowknife, Vancouver, Saskatoon and Fredericton.

During the academic year of 1980-81, an average of 68 clients per day have come into the library. This figure does not include out of library borrowers who book programs by phone or letter.

The AV library itself came into existence in 1975 and was the brainchild of Charles Bidwell, Director of Health Sciences Audiovisual Education. The library was originally located in the Clinical Sciences Building and was closely affiliated with the TV department still located there. However, in 1977, most of the AV software programs, and some of the AV equipment moved to the second floor of the Medical Sciences Building where it is still situated. During the winter of 1978, the library doubled its size by expanding into the room next door, 2-54. Future plans see the amalgamation of the Medical Sciences Library, 5th floor Cameron, with the AV Health Sciences Library into the new Health Sciences Medical Complex, Phase II. This move is anticipated in 1984 or 1985.

The AV library is staffed annually by the AV Librarian. A Library Clerk, as well as part-time student staff also assist in the library during the academic term. The library is open from 8 a.m. to 9 p.m. Monday through Friday and from 1 p.m. to 5 p.m. on Saturdays during the academic term, and usually from 8 a.m. to 4 p.m. Mondays through Fridays in the summer.

Staff and students are invited to make use of the Audiovisual Library facilities. Staff members of the library are happy to familiarize new users with the resources and procedures. Telephone queries are also welcome (phone 432-3096). □*

Labatt's Scholarship Presented to Business Administration and Commerce

First-year students in the Faculty of Business Administration and commerce will be considering Labatt's in a somewhat different light in the 1981-82 academic year and beyond. The firm recently presented a scholarship endowment of \$25,000 to each of The Universities of Alberta and Calgary. Plans call for The University of Alberta to use the interest from the funds (to a maximum of \$6,000) to institute the Labatt's MBA Fellow Award. The award will recognize a student's high academic achievement and potential as shown in

the first year of the MBA program. The student selected from approximately fifty-five eligible candidates will receive the "Fellow" designation and a scholarship of some \$6,000 in the second year of studies.

Of added importance is the fact that the annual interest from the endowment fund will be matched by the provincial government on an on-going basis under the 1980s Advanced Education Endowment Fund.

The scholarship endowments were presented by Peter Hardy, Chairman of the Board, and Peter

Widdrington, President and Chief Executive Officer of John Labatt Ltd.

Mr. Hardy said the endowments will serve as an investment in the province and people of Alberta. "Our decision to make these awards is by no means sheerly altruistic," he said. "We need people with the skills that will be developed in the graduate business schools. We appreciate how this province is setting the pace and we are glad to be here and playing a part—in more ways that the obvious highly visible beer sales."

John Labatt Ltd. is a Canadian management holding company engaged in three principal businesses: brewing, packaged food, and agri products. The company, which has its head office in London, Ontario, was founded in 1828. □

Administrative Appointments

B. Abu-Laban has been appointed Acting Director of the Office of Institutional Research and Planning. The appointment runs from 1 July 1981 to 30 June 1982.

Other administrative appointments made recently were those of P. Sartoris, Acting Dean of Students, and B.N. Harrington, Acting Dean of Nursing (half-time staff). These two appointments are also for the period 1 July 1981 to 30 June 1982.

Dr. Abu-Laban, Professor of Sociology, earned his BA and MA at Beirut and his PhD at Washington. He was first appointed to

The University of Alberta in 1961.

Dr. Sartoris, Professor of Educational Psychology, has been Director of Student Counselling Services since 1977. He received his MA from this University and his PhD from the University of Utah. He joined The University of Alberta in 1966.

Professor Harrington earned BN and MN degrees at McGill and Washington respectively. Her first full-time appointment to The University of Alberta occurred in 1961. □

service information

Coming Events

Music

South Side Folk Club

5 August. 8 p.m. The Club presents "Figgy Duff" from Newfoundland. Provincial Museum Theatre. Tickets at Mike's and HUB. Club information 478-6417.

Theatre

Theatre Network

28 July. 8:30 p.m. "Nuptial Ball." 11845 77 Street

Exhibitions

Multicultural Heritage Centre

Until 31 August. Newfoundland and Labrador Cottage Crafts.

Special Events. Summer programs in Settlers' Cabin, children's crafts, pioneer crafts, working with wool and making homespun wool. Call 963-2777 to register.

Settlers' Cabin a "living museum" of pioneer and ethnic crafts.

Handicraft Store features work by local artisans.

Library and Archives with pioneer photographs, tapes and maps.

Homesteaders' Kitchen serves lunch daily (except Mondays) noon to 2 p.m., coffee and dessert 2 p.m. to 4 p.m.,

and dinner Thursday evening from 5:30 p.m. to 7 p.m. The Heritage Centre is located at 5411 51 Street, Stony Plain. Telephone: 963-2777.

Ring House Gallery

Until 28 August. "Lansdowne Bird Paintings: 1958-1972" a collection of bird paintings by Victoria artist James Fenwick Lansdowne.

Until 28 August. Carved wooden bowls in the shape of birds by Westcoast artist Bill Koochin.

Devonian Botanic Garden

The Garden will be open to the public from May to September as follows: Weekdays 10 a.m. to 4 p.m. Saturdays, Sundays and Public Holidays 12 noon to 6 p.m. Tours can be arranged by calling 987-3054.

Rutherford House,

11153 Saskatchewan Drive

The restored home of Alberta's first premier, A.C. Rutherford, is located on the University campus. Staff in period costumes show visitors through the house. Until Labor Day, open daily 10 a.m. to 8 p.m. Group tours may be arranged by calling 427-5708 at least one week in advance. Free.

Provincial Museum

Continuing. "Canada!" a selection of photographs and poems from across the country. Orientation Gallery.

Ukrainian Cultural Heritage Village

The Village is open to the public 10 a.m. to 6 p.m. daily until 31 August. It is located 45 km. east of Edmonton on Highway 16, and admission is free.

University Special Collections

Until 4 September. "William Cowper, English Poet—250th Anniversary." B37 Cameron Library: Opening hours

8:30 a.m. to 4:30 p.m. Monday to Friday.

Until 20 September. "Near Terrestrial Paradise: Early California Travels."

Alberta Natural Resources Science Centre

The Centre consists of six permanent pavilions with displays that describe and interpret how Alberta's natural resources are put to use. Opening hours are Saturdays and Sundays from 11 a.m. to 5 p.m. School tours are available Monday to Friday. Admission and parking are free. The Centre is located east of Edmonton at the new Strathcona Science Park. For further information and bookings phone 427-9490.

Films

Edmonton Public Library

Mondays. 12 noon. Brown bag cinema. Centennial Library Theatre. Admission free.

National Film Theatre

23 July. 7:30 p.m. "Angi Vera."

9:10 p.m. "The Adventures of Juan Quin Quin."

24 July. 7:30 p.m. "The Adventures of Juan Quin Quin."

9:30 p.m. "Angi Vera."

26 July. See 23 July.

29 July. 7:30 p.m. "The Harder They Come."

9:20 p.m. "Rockers."

30 July. 7:30 p.m. "Rockers."

9:15 p.m. "The Harder They Come."

Showing in Zeidler Hall in the Citadel Theatre.

Edmonton Film Society

27 July. 8 p.m. "Come Have Coffee With Us."

Showing in Tory Theatre. Tickets at HUB, Woodwards, and at the door.

Lectures and Seminars

Departments of Medicine and Chemistry

30 July. 12 noon. Professor Akira Kobata, Department of Biochemistry, Kobe University School of Medicine, Japan, will speak on "Structural Changes of the Asparagine-Linked Eugar Chains of Cell Surface Glycoproteins by Transformation." 231 Medical Sciences Building.

Non-Credit Courses

Computing Services Client Training Sessions

Computing Services is taking registrations between 8:30 a.m. and noon for the following non-credit courses. For further information, please telephone Information Services at 432-2463 or come to 319 General Services Building.

Advanced SPIRES

Course number: 594. Date: 17, 19, 21, 25, 27 August. Time: 1 p.m. to

4:40 p.m. Fee: \$35. Prerequisites:

Introduction to SPIRES. Place: 328 GSB.

Introduction to TEXTFORM

Course number: 602. Date: 5, 7, 12, 14 August. Time: 10 a.m. to 12 noon. Fee: \$15. Prerequisites: MTS and Editor Fundamentals Course. Place: 553 GSB.

Notices

Annual Faculty Golf Tournament

The annual Faculty Golf Tournament will be held this year on 27 August at the Leduc Golf and Country Club. The entry deadline is 21 August and the cost, which includes green fees, steak barbecue and prizes, is \$20. There will also be available for rent golf clubs (\$3.50 for 18 holes, pull carts (\$1.50), and electric carts (\$14; telephone 986-2803 to reserve these).

To get to the Leduc Golf and Country Club, one should go south on Highway 2 to the first exit for Leduc and cross over the Highway to 50 Street. There, turn south past the traffic signals to the railway tracks. Do not cross the tracks but turn sharp right (westward). Go under the highway overpass and find the golf course on the left.

To enter, please telephone 432-3364 or 432-3341. Tee-off time will be between 10:30 a.m. and 1:30 p.m. only.

Positions Vacant

Administrative Professional Officer

The Department or Pediatrics, Faculty of Medicine, requires a professional administrator to commence 1 September. The position involves budgets and financial control planning, personnel management and liaison with the University-Hospital administrations, grading and government agencies.

Qualifications preferred are a university degree plus some management and administrative experience particularly in the areas of personnel and financial controls.

Salary will be set according to experience and qualifications. Please send résumé and two references to: Dr. E.E. McCoy, Professor and Chairman of Pediatrics, 4-117 Clinical Sciences Building, University of Alberta, Edmonton, Alberta. T6G 2G3. The University of Alberta is an equal opportunity employer.

Reference Librarians

The University of Alberta Library requires reference librarians in the following areas:

Business Librarian, Humanities and Social Sciences Library.

Duties include provision of reference service, effective liaison and collection development work with the Faculty of Business Administration and

Commerce, the giving of instructional and orientation lectures, and on-line searching of commercial data bases.

Romance Languages Librarian, Humanities and Social Sciences Library. Duties include provision of reference service, effective liaison and collection development work with the Department of Romance Languages, the giving of instructional and orientation lectures, and on-line searching of commercial data bases.

Librarian, Government Publications Unit Humanities and Social Sciences Library Duties include the provision of reference service, assisting in management and organization of the collection including coding of documents, and the giving of instructional and orientation lectures.

Reference Librarian, Undergraduate Library Duties include provision of reference service, book selection, the giving of instructional and orientation lectures, and supervision of clerical assistants.

Professional library qualifications required. Preference will be given to candidates with appropriate academic backgrounds and relevant experience.

Salary according to experience and qualifications. Academic status, excellent fringe benefits, removal grant. Applicants should send curriculum vitae, transcripts of academic record, and the names of three references to: Mr. Bruce Peel, Chief Librarian, University of Alberta, Edmonton, Alberta T6G 2J8. The University of Alberta is an equal opportunity employer.

Assistant Coordinator

One temporary full-time position is available in the International Student Office from 17 August to 14 September. Salary: \$1,000. Duties will include picking up new students from the airport, helping to look for housing, and assisting with arrangements for the orientation program. Must be personable, energetic, willing to work irregular hours, and have access to a car. Apply at Room 225 Athabasca Hall (432-4145) before 31 July.

Non-Academic Positions

To obtain further information on the following positions, please contact Personnel Services and Staff Relations, third floor, SUB, telephone 432-5201. Please do not contact the department directly. Positions available as of 17 July 1981.

Clerk (\$903.29-\$1,089.07)—Office of the Comptroller
Clerk Typist II (\$970.59-\$1,161.75)—Office of the Comptroller; Graduate Studies and Research; Romance Languages; Physiology; Housing and Food Services (2 positions); Personnel Services and Staff Relations
Clerk Steno II (\$970.59-\$1,161.75)—

Surgery; Mechanical Engineering; Elementary Education; Economics
Library Clerk III (\$1,006.94-\$1,204.82)—Geography
Senior Clerk (\$1,006.94-\$1,204.82)—Technical Services (Graphics Division)
Switch Board Operator (\$1,006.94-\$1,204.82)—Administrative Services; Physical Plant—Telephone Communications
Senior Financial Records Clerk (Part-time) (\$617.68-\$745.40)—
